

Stage 1 Problems Class Cover Sheet

Term 1: PHY1021 (Vector Mechanics) & PHY1022 (Introduction to Astrophysics)

- This cover sheet *must* be **stapled to the front of your homework**. The homework for both modules should be stapled together with one cover sheet.
- Complete your **name, tutor's name, date, and the week number** in **both** boxed sections below. Unnamed submissions may result in marks not being entered.
- *Please* complete this sheet and staple your work together **before the class** to prevent delays.
- Homework must be submitted before the class begins. If you arrive late your **mark may be capped at 40 %**.
- Markers *must* enter the homework marks into **both** boxes below, for the correct course, and *must* **write their name in the bottom box**. Failure to do so **will be treated as being absent** from the class.
- If you are taking only one module, please indicate this to the demonstrator when entering the class.
- Please print your name and tutor's name clearly. Illegible names may result in delayed feedback or marks not being entered.

Student	Date (YYYY-MM-DD): _____ - ____ - ____	Week No.	T01	W_____
	Student Name:	_____		
	Tutor Name:	_____		
Marker	PHY1021 (Vector Mechanics):	____ / 40	<i>Please enter the number of marks given only. No percentages or adjustments.</i>	
	PHY1022 (Introduction to Astrophysics):	____ / 40		

Remember: you **must** complete both halves of the form and enter the marker name.

Student	Date (YYYY-MM-DD): _____ - ____ - ____	Week No.	T01	W_____
	Student Name:	_____		
	Tutor Name:	_____		
Marker	PHY1021 (Vector Mechanics):	____ / 40		
	PHY1022 (Introduction to Astrophysics):	____ / 40		
	Marker Name:	_____		

This section will be detached before the homework is returned. Do not detach this yourself.
